2. Key Value Propositions

- **The "Fluid" OS:** A proprietary operating system built on a microkernel architecture that allows for 100% app compatibility with both Android and iOS environments.

Feature	Specification
Processor	Helios G1L Neural Chip (6nm architecture)
Display	6.1" Super-AMOLED "Infinity" Display
Storage	256GB
Refresh Rate	Dynamic 1Hz to 60Hz
Battery	5,200 mAh with 20W Rapid Charging
Security	Biometric "Vein-Scan" (Under-display)
Connectivity	5G Ready & Satellite SOS

3. Environmental Resistance

Designed for everyday use, the Alexy G26 Lite does not include water or dust resistance. No Ingress Protection supported; The device is not certified against dust or water exposure, so it should be kept away from moisture, liquids, and dusty environments to maintain optimal performance.
