2. Key Value Propositions

- **The "Fluid" OS:** A proprietary operating system built on a microkernel architecture that allows for 100% app compatibility with both Android and iOS environments.
- **Modular Lens System: Unlike fixed camera bumps, the G26 features a** magnetic "Halo" ring, allowing users to swap physical Leica-certified glass elements.
- **Sustainability:** Built with a 95% recycled titanium chassis and a user-replaceable battery.

Feature	Specification
Processor	Helios G1 Neural Chip (4nm architecture)
Display	6.7" Super-AMOLED "Infinity" Display
Storage	1TB
Refresh Rate	Dynamic 1Hz to 144Hz
Battery	6,000 mAh with 80W Rapid Charging
Security	Biometric "Vein-Scan" (Under-display)
Connectivity	6G Ready & Satellite SOS

3. Environmental Resistance

To ensure maximum durability, the Alexy G26 Pro features industry-leading waterproof protection:

- **IP69 Rating: The highest rating for ingress protection, certifying the Alexy G26** Pro is completely dust-tight and capable of withstanding high-pressure, high-temperature water jets.
- **Hydro-Guard Internal Seal:** Proprietary nanocoating protects internal components, meaning the phone remains waterproof even when the "Halo" lens elements are detached.
