GrigoTel
MOBILE TECHNOLOGY

Corporate Profile

---

1. Company Overview

GrigoTel is a French-based multinational technology corporation specializing in advanced telecommunications, consumer electronics, and neural-link software. Founded with the mission to "Restore Hardware Sovereignty," GrigoTel challenges the current mobile duopoly by offering high-performance, open-ecosystem devices that prioritize user privacy and modular longevity.

2. Leadership & Vision

- **Founder & CEO: Alexy Grigorev**
- **Headquarters:** Paris, France (Tech Hub District)
- **Founded Date:** 01/01/2022

Founder’s Statement:

"At GrigoTel, we believe that innovation shouldn't come at the cost of ownership. With the Alexy G26, we aren't just selling a device; we are delivering a platform that respects the user’s right to repair, expand, and secure their own digital life." — Alexy Grigorev

---

3. Core Values

- **Modular Excellence:** Designing hardware that evolves with the user (e.g., the Halo Lens system and expandable storage).
- **Quantum Privacy:** Implementation of quantum-safe encryption standards as a baseline, not a premium feature.
- **European Engineering:** Leveraging French design aesthetics and rigorous EU data protection standards.
- **Sustainability:** Commitment to 95% recycled titanium and ethically sourced minerals across all production lines.

---

4. Operational Hubs

While headquartered in France, GrigoTel operates a decentralized R&D network to tap into global talent:

- **Paris, France:** Global HQ, Industrial Design & Software Engineering.
- **Berlin, Germany:** Security Systems & Encryption Lab.
- **Tokyo, Japan:** Optical Engineering (Halo Lens Partnership).
- **Shenzhen, China:** Supply Chain & Logistics Management.

---

5. Strategic Roadmap

Following the launch of the Alexy G26, GrigoTel is set to expand into:

1. **FluidOS for Desktop:** A seamless transition from mobile to workstation.
2. GrigoCloud: A zero-knowledge storage solution for Alexy G26 users.
3. **The 'Apex' Tablet:** A professional-grade modular tablet slated for Q1 2027.
